I receive many letters from the Colonels and agents engaged in purchasing requesting me to inform them what kind and quality of guns are sminable. To answer these impairies would take up much time, and I give herein the kinds of guns fit for use:

For reboring and selftling it is necessary that I have a barrel not less than three fourths of an loch in diameter, at the smallest part of the barrel; not it mak a no difference whether any part of the gun is good except the barrel; as they are all restocked, and new bands, breech-plates, guards triggers and trigger plates are used. I won diprefer to have good locks, but this is not indispensable. Any kind of a double-barrel shot gun, unless the barrel is too much worn, can be made an efficient weapon. Single barrel guns, unless they are of the class known as "duck guns, are assess for army purposes. would be well for the Colonels who receive is gun's in good order it should be rec ived eve
